

What to Bring to Campus

Deciding what to pack for your first year on campus can be stressful. Creighton students and staff recommend the items below. If your transportation to Omaha limits how much you can bring—or if you're just not sure if you'll need something—don't stress!

After you're moved in, you can always make a quick trip to the store or order online. In light of COVID-19, please especially note the **highlighted** health-related items.
